**REWARD SURVEY: MAKE A CHOICE**

**Directions:** Let's pretend that your teacher wants to give you a reward for doing a great job. We have to figure out the kinds of reward you would like the best out of the two options. Each item has two choices. Circle the reward you would like the best out of the two options. Remember mark only one for each pair.

Choose your seat for the day. (P)

**REWARD SURVEY: MAKE A CHOICE**

Help identify rewards a student will find motivating, it is helpful to directly ask the student to make a choice between two types of rewards. This will help you figure out the kinds of rewards the student may or may not find motivating. Forced choice is simply asking the student or presenting them with a list of possible rewards.

**REWARD SURVEY DIRECTIONS**

Have the student complete one of the Reward Surveys.

Each item has a letter next to it. Total up the number of times the letter appears.

- \_\_\_\_ (AA) **Adult Attention:** Positive attention from adults or teachers.
- \_\_\_\_ (PA) **Peer Attention:** Positive attention from peers or friends.
- \_\_\_\_ (P) **Privileges:** Access to privileges first or exclusively.
- \_\_\_\_ (T) **Tangible:** Access to small items, toys, or treats.
- \_\_\_\_ (R) **Recognition:** Public recognition of an accomplishment.
- \_\_\_\_ (L) **Leadership:** Public recognition of an accomplishment.

I Owe You!

You earned  
 So COOL!

Wow

**Acceptability:** Does the teacher approve of using the reward with this child? Are you willing to approve of the reward for their child?  
**Availability:** Is the reward typically available in a school setting? If not, can it be obtained in a school setting?

## COMMON MISTAKES

### ENDING BEHAVIOR PLANS

### GET STUDENTS TO TAKE OWNERSHIP

### MONITOR & CHANGE GOALS

### CHOOSE & DEFINE TARGET BEHAVIORS

#### Goals

#### NUMBER OF GOALS

Let a student work on one or two behaviors at a time. You can add behaviors that are related and would benefit from additional reinforcement. I would recommend no more than two behaviors.

#### EXAMPLE

When setting the goals, make sure it is clear what they are. Goals should always be something we can observe. The student is clear on what they mean. We can't see or measure intention. Character goals like, "the student will be respectful," are challenging to observe or measure.

#### THE NEWBIE TEST

The student should be able to read your behavior plan, observe the student, and accurately judge if they met their goal or not. It should not require knowing the student in depth.

#### EXAMPLE

Goals should be simple so you can measure them. How are you planning to measure call-outs for students in front of you. This is something you have to think through before.

Try this trick the way. Put rubber bands on your wrist. Move a rubber band over to the other wrist every time a student calls-out. You just collected data while teaching. Voila! Even better, that trick serves as a reminder for the student.

#### GOALS ONLY

When setting classroom rules, behavior goals should be positively phrased and clearly explain what you want the student to do, not what you don't want them to do. What do you want the student to do? What do you want them to be able to do consistently?

## SET SMART GOALS

### SMART Goals

All behavior goals should be SMART. This is key to ensuring the success of your plan. SMART goals help us know what success looks like.

#### MAKE IT SPECIFIC

Write the goals so they describe exactly what the desired behavior is. You can use shorthand for these goals, but it should be crystal clear to everyone involved in the plan what the goals is.

#### MEASURE IT

The behavior goals should be something that can be measured or counted. For example, say you have a student that blurts out and you want them to raise their hand. You can set a goal for the number of call-outs (How does 0 sound?) or a goal for the student raising their hand. If the student calls-out 0-1 times = **great**, 2-3 times = **okay**, more than 3 = **get back on track**.

#### KEEP IT ATTAINABLE

To keep the goals attainable or reachable, it is essential to collect some pre-plan data. What is the student currently able to do? How often are they calling out? If you set goals that are too hard or even too easy, you will frustrate or bore the student.

Collect a few days of data to give you an accurate starting point.

#### RELEVANT TO YOU AND THEM

Does the student care about the goal? Is it high priority for you? Plans should be focused on essential behaviors. It can be tempting to use goals focused on your school motto or character pillars. Are these the highest priority? Does the student care about them? Relevant goals make for motivating plans.

#### SET TIME BOUNDARIES

Time boundaries keeps your data accurate and also reminds you to adjust plans so they don't grow stale. Goals should have clear time boundaries. For example, the student will raise their hand with only one reminder during each whole group lesson. The whole group lesson is the time boundary. Also in the plan, you would have a time boundary on when to revisit the plan and when a big goal should be achieved.

# BEHAVIOR PLAN GUIDES

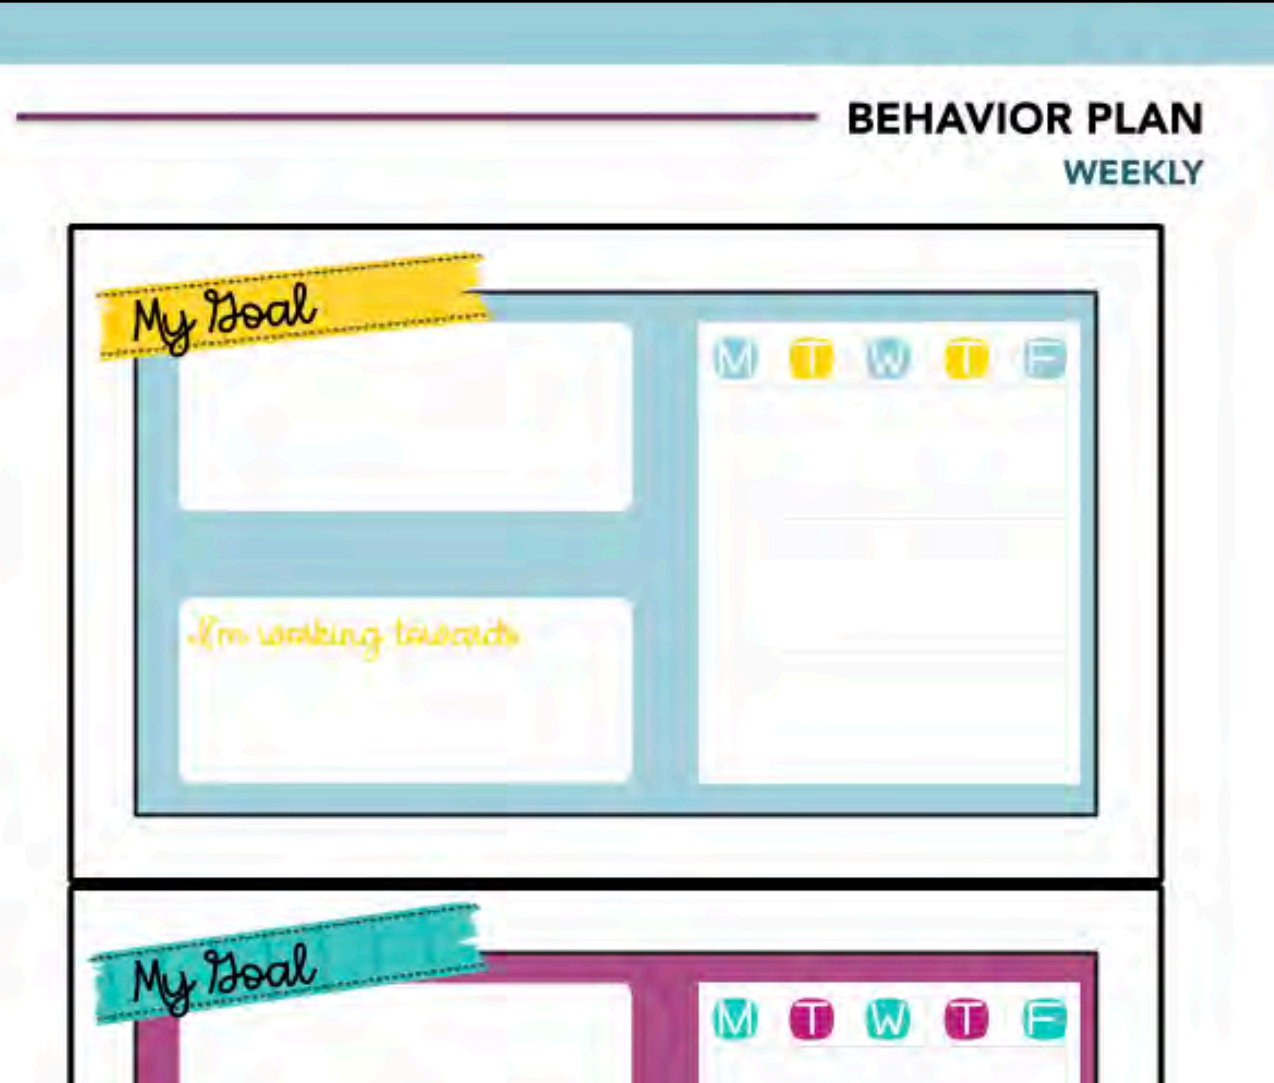

## BEHAVIOR PLAN WEEKLY PLANS

### WEEKLY PLANS

Weekly plans are charts that track a student's progress with a target behavior on a weekly basis. They work well for students who are fine with a few check-ins per day and are okay with bigger chunks of time, such as a whole morning. The student should be struggling with one specific behavior, but need additional reinforcement. Not ideal for students who require more intensive support or who could use something simpler like a sticker chart. These plans pair well with skill instruction.

**EXAMPLES:** On-time arrival, work completion, positive interactions with classmates.

### IMPLEMENTATION

1. Write goal down on the chart.
2. Explain to the student that they will receive a token (e.g., sticker, smiley) if they showed the target behavior during the predetermined time.
3. At the beginning of a plan, make sure to provide a token when they meet or are very close to meeting the expectation. For example, they may receive encouragement when they begin to falter. You want them to be successful during the first week so you secure buy-in. Depending on your student, it may be helpful to give a reward after the first day, then after the third day, then move to once a week.
4. When the goal is met, provide the student with the chosen reward. Do not forget to do this. Use the IOU slips as a safety net.
5. You can break the day in three parts. Morning and two afternoon blocks, or morning, afternoon, and one mystery or bonus subject.
6. Consider other ways to reinforce the behavior and positive progress. Send the chart home to show parents, shout out the student for progress, post in class, tell a staff member, have the student talk to younger classes.

# BEHAVIOR PLAN BEHAVIOR CONTRACTS

## BEHAVIOR CONTRACTS

Behavior contracts are written contracts with a student where they identify their target behavior, the goal, and the reward to be given. It also describes everyone's role in the plan. The student signs the contract along with the teacher. This is great for older students. It will feel less juvenile and involves

positive reports from specials.

## CONTRACT

### GOALS

### THE CONTRACT

### BONUS

### PENALTIES

M

Tu

W

Th

F

### RESPONSIBILITIES

Discuss each section with the student.

The target positive behavior(s) is the student trying to show more

How the plan will work. For example, "When Jackie has met her goal, she will choose from the following rewards." Any rewards to be given should also be listed here. This section should help anyone who is unsure when rewards will be given.

The contract can have additional clauses that reward or penalize the student for additional incentives.

Make sure you note if the student met their goal that day.

Make sure that each person (student, teacher, parent) is responsible for their part next to their responsibilities.

Make sure you provide the earned reward.

Recognize the student's behavior and positive progress. Send the contract home to the student to show progress, post in class, tell a staff member, have the student

Use the contract as a tool for improvement. You can also record the data on a chart.

Use the contract as a template for other behavior plans. This is a helpful way to ensure everyone is on board.

# BEHAVIOR CONTRACTS

## BEHAVIOR PLAN WORKSHEET

### Define the Problem Behavior

Objectively describe the behavior the student is showing so that anyone would be able to tell if it is the same behavior.

### Antecedents

What happens immediately before the behavior?

## BEHAVIOR PLAN WORKSHEET

### The Behavior Plan

What does the behavior plan look like? What will be done in the classroom?

## BEHAVIOR PLAN WORKSHEET

### Connection & Communication Strategies

What are key ways to interact with the student to prevent problem behaviors, improve their rate of success, and develop a relationship that will promote positive choices? What consistent phrases can staff use to prompt the student?

### Reaction Strategies

How should we respond to the problem behavior? What reactions does the student respond well to? Will this depend on how escalated the student is?

## BEHAVIOR PLAN CHECKLIST

### To Do

#### Problem Behavior

- Objective, measurable, specific problem behavior definition.
- Note antecedents, consequences, notable events, and possible function.
- Write a functional behavior statement.

#### Strengthen Needed Skills

- Identify underdeveloped skills that may be interfering with the student's ability to perform the target behavior.
- Develop a plan to teach underdeveloped skills.
- Determine accommodations and modifications to make to the student's environment.

#### Person to Person Strategies

- Identify communication strategies.
- Identify connection strategies.
- Describe reaction strategies.

#### Behavior Reinforcement Plan

- Write specifics of behavior plan.
- Choose rewards.
- Name logical consequences.

#### Plan Maintenance

- Draft data collection plan.
- Develop a home-school communication plan.
- Name staff roles and responsibilities.
- Create an implementation checklist.

# BEHAVIOR PLAN WORKSHEET AND CHECKLIST

**REWARD SURVEY: MAKE A CHOICE**

Help identify rewards a student will find motivating, it is helpful to directly ask the student to make a choice between two types of rewards. This will help identify rewards the student may or may not find motivating. Forced choice is simply asking the student or presenting them with a list of possible rewards.

**REWARD SURVEY DIRECTIONS**

Have the student complete one of the Reward Surveys.

Each item has a letter next to it. Total up the number of times the letter appears.

- \_\_\_\_ (AA) **Adult Attention:** Positive attention from adults or teachers.
- \_\_\_\_ (PA) **Peer Attention:** Positive attention from peers or friends.
- \_\_\_\_ (P) **Privileges:** Access to privileges first or exclusively.
- \_\_\_\_ (R) **Recognition:** Public recognition of an accomplishment.
- \_\_\_\_ (T) **Tangibles:** Small items or tokens, such as prizes or treats.

Typically, focus on providing rewards that fall into the top two categories.

**REWARD DECK**

Go through reward deck and determine rewards that would work in the classroom.

Give the student the Reward Deck with the acceptable rewards.

Have the student put rewards into three piles (Yes, No, Maybe).

Make a list of the Yes and Maybe rewards.

Give the student the opportunity to generate rewards that were not in the deck.

Attach list to behavior plan.

**WILL THE REWARD WORK?**

**Acceptability:** Does the teacher approve of using the reward with this child? Are the parents approve of the reward for their child?

**Availability:** Is the reward typically available in a school setting? If not, can it be obtained?

**REWARD SURVEY: MAKE A CHOICE**

**Directions:** Let's pretend that your teacher wants to give you a reward for doing a great job. We have to figure out the kinds of rewards you like best. Each item has two choices. Circle the reward you would like the best out of the two options. Remember mark only one for each pair.
